ANNUAL

- 1 Review of the Trade of India As 12. (2s)
- 2 Accounts relating to the Sea-borne Trade of British India for the Calendar year As 12 (2s)
- 3 Annual Statement of the Foreign Sea-borne Trade and Navigation of British India —
Vol. I.—Abstract and detailed Tables of Imports and Exports. Rs 12. (Rs 1)
Vol. II.—Abstract and detailed Tables of Trade and Shipping, etc. Rs 6. (12s)
- 4 Annual Statement of the Commerce, Trade and Navigation of British India Rs 12 (2s)
- 5 Indian Trade (Land and River-borne) of India Rs 12. (6s)
- 6 Report on the Trade carried by Land and River in Bengal Rs 12 (5s)
- 7 Report on the Trade of Bengal with Nepal, Tibet, Sikkim, and Bhutan. As 2 2. (2s)
- 8 Prices and Wages in India Rs 2 (4s)
- 9 Statistics of British India—Vol. I.—Commercial Statistics. Rs 8. (5s)
- 10 „ „ „ —Vol. II.—Financial Statistics. Rs 8 (5s)
- 11 „ „ „ —Vol. III.—Public Health. Rs 1 (4s)
- 12 „ „ „ —Vol. IV.—Administrative, Judicial, etc. Rs 12 (4s)
- 13 „ „ „ —Vol. V.—Education. Rs 4. (4s)
- 14 Agricultural Statistics of India—
Vol. I.—British India. Rs 2 (12s)
Vol. II.—Indian States. Rs 1 (4s)
- 15 Summary Tables of the Agricultural Statistics of British India. As 4
- 16 Estimates of Area and Yield of Principal Crops in India. As 8. (2s)
- 17 Preliminary Statement showing the Area and Yield of Principal Crops in India. Half anna.
- 18 Report on the Production of Tea in India. As 8 (2s)
- 19 Report on the Production and Consumption of Coal in India. As 12. (2s 6p)
- 20 Statistics relating to Joint Stock Companies in British India and Mysore Rs 4 (2s)
- 21 Statistical Tables relating to Banks in India. Rs 12 (1s 6p)
- 22 Statistics relating to Salt in India As 13 (2s)

MONTHLY

- 23 Accounts of the Foreign Sea-borne Trade and Navigation of British India. Rs 4 (2s)
- 24 Accounts relating to the Trade by Land of British India with foreign countries. As 8 (2s)
- 25 Cotton Spinning and Weaving in Indian Mills. As 2. (1s)
- 26 Calcutta Trade Fluctuations. As 2
- 27 Customs Revenue Statement. Half anna
- 28 Joint Stock Companies registered in British India and Mysore Half anna.

FORTNIGHTLY

- 29 Wholesale and Retail Prices of cereals, pulses, oilseeds, sugar, salt, etc., in India. As 6

WEEKLY

- 30 Weekly Imports and Exports from Chief Ports of Wheat, Jute and Cotton. Half anna.

MISCELLANEOUS

- 31 Index Numbers of Indian Prices from 1861—1918 As 13. (2s)
- 32 Crop Forecasts. Half anna each.
Price—1st (October), 2nd (December), Final (February)
Wheat—1st (January) 2nd (March) 3rd (May) Final (August). Special and supplementary (intermediate)
Cotton—1st (August), 2nd (October), 3rd (December), Final (February)
Linseed, Rape and Mustard (winter oilseeds)—1st (January) 2nd (March), Final (June).
Sesamum (oil or naph)—1st (September) 2nd (October) Final (January), Supplementary (April).
Groundnut—1st (October) Final (February).
Indigo—1st (October) Final (December).
Sugarcane—1st (August) 2nd (October), Final (February).
- 33 Large Industrial Establishments in India. Rs 4
- 34 Registration and Publication of Statistics relating to the Sea-borne Trade and Navigation of British India. Rs 2
- 35 A manual on the preparation of Crop Forecasts in India. As 8
- 36 Cotton Map of India No. 1.—Showing the different varieties of cotton grown in the different districts and States in India. As 8.
- 37 Cotton Map of India No. 2.—Showing the relative importance of cotton growing districts and States in India. As 4.
- 38 Quarterly Report on the Average Yield per Acre of Principal Crops in India for the period ending 1916-17 As 12.
- 39 Report on the First Census of Live Stock, Ploughs and Carts in India held between December 1919 and April 1920 As 4.

Note.—Those marked with an asterisk (*) to be obtained from the Officer in charge, Bengal Secretariat Book Depot.

STATISTICS OF BRITISH INDIA

1919-20.

VOLUME V—EDUCATION

PREFATORY NOTE

This volume deals with statistical facts and figures relating to Indian Education. The tables are divided into two classes —(1) Summary tables which give the salient facts relating to the number of schools and scholars and the expenditure on education, and (2) General tables which give both provincial and imperial figures. Prefixed to these tables are given extracts from a recent report on Indian Education in 1919-20 by the Educational Commissioner with the Government of India. It is therefore not considered necessary to write a detailed note on education in India during the year 1919-20 as these extracts well sum up the position.

D N GHOSH,
Offg Director of Statistics

DEPARTMENT OF STATISTICS INDIA
Calcutta May 11, 1921

INTRODUCTORY NOTE

EXTRACTS FROM THE REPORT ON INDIAN EDUCATION IN 1919-20 (OF THE EDUCATIONAL COMMISSIONER WITH THE GOVERNMENT OF INDIA)

I—Main features of the year

The year under review was fortunate in being free or almost free from the three evils, war, pestilence, and famine which checked the progress of education in 1918-19.

* * * Education during the year 1919-20 had fewer obstacles to contend with than in any previous year of the quinquennium. We consequently find that whereas there was a drop of 11,000 in the number of pupils in 1918-19, during the year under review there was an increase of over a quarter of a million. All classes of institutions shared in the increase, the numbers attending colleges rising from 63,630 to 63,916, in secondary schools from 1,212,133 to 1,251,510 and in primary schools from 5,941,452 to 6,133,521. In view of the remarks on this point in last year's Report it is interesting to note that an increase of only 2.8 per cent in the number of all institutions (public and private) has been accompanied by an increase of over 3.8 per cent in the number of scholars. The following table shows the increase in the number of public institutions of each grade—

Public institutions
(Tables Nos 2, 5, 6, 7 and 23)

Year	Colleges.	High schools.	Anglo vernacular middle schools.	Vernacular middle schools.	Primary schools.	Special schools.
1918-19	200	1,985	3,778	2,885	150,271	3,701
1919-20	216	2,113	3,793	3,300	153,344	4,090
Increase	+16	+128	+15	+415	+3,073	+389

Pupils
(Tables Nos 2, 4, 5, 6, 7 and 23)

The distribution of the pupils by province is shown in the following statement—

Province	IN PUBLIC INSTITUTIONS		IN PRIVATE INSTITUTIONS		IN ALL INSTITUTIONS			
	No. of pupils on the 31st March 1920	Amount of increase or decrease in the year	No. of pupils on the 31st March 1920	Amount of increase or decrease in the year	No. of pupils on the 31st March 1920	Amount of increase or decrease in the year	Percentage of increase or decrease in the year	Percentage of population under instruction
Madras	1,602,769	+42,688	104,271	-5,693	1,707,040	+37,095	+2.19	4.18
Bombay	861,833	+64,477	30,897	-5,605	892,730	+58,872	+7.06	4.48
Bengal	1,886,699	+1,273	67,310	-1,899	1,954,009	+2,374	+1.16	4.78
United Provinces	931,569	+83,500	71,031	-2,599	1,002,600	+80,901	+8.75	2.15
Punjab	464,770	+30,644	53,717	+8,146	518,487	+40,790	+8.55	2.15
Burma	37,561	-4,630	702,645	+6,908	740,206	+2,278	+0.31	4.75
Bihar and Orissa	811,041	+21,935	35,471	-2,508	846,512	+19,427	+2.34	2.45
Central Provinces and Berar	347,009	-38	2,067	+66	349,076	+167	+0.05	2.57
Assam	2,434	+8,976	8,737	-536	11,311	+8,340	+73.7	3.47
North West Frontier Province	41,317	-1,300	3,798	-3,475	45,115	-3,745	-8.3	2.03
Other Administrations	43,755	+1,707	10,857	+1,567	54,612	+3,299	+6.03	3.33
INDIA	7,612,839	+74,175	693,385	-4,093	8,306,224	+70,082	+3.75	3.36

* * * * * Expenditure has increased from Rs 98,63,073 to Rs 14,58,06,960 or by 15 per cent. The figures may be analysed as follows—

Expenditure
(Tables Nos 3, 9 and 10)

	PUBLIC FUNDS		Fees	Other sources.	TOTAL
	Provincial	Local			
	P	R	R	R	R
1918-19	5,13,22,879	1,74,00,483	3,54,65,01	2,78,71,07	12,98,63,073
1919-20	6,31,67,233	2,13,01,239	3,68,50,459	2,75,63,079	14,58,06,960
Difference	+8,34,404	+39,00,756	+14,14,755	+4,81,952	+1,60,33,887

II—Universities and Colleges

The Report of the Calcutta University Commission was published in August 1919 and in the following January the Government of India issued a Resolution summarising the main features of the Report and the recommendations of the Commissioners

The Government of India drew special attention to the following points in the Report —

- (i) High schools fail to give that breadth of training which the developments of the country and new avenues of employment demand
- (ii) The intermediate section of University education should be recognised as part of school education and should be separated from the University organisation
- (iii) The defects of the present system of affiliated colleges may be mitigated by the establishment of a strong central teaching body, the incorporation of unitary universities (as occasion arises), a modification of the administrative machinery which will admit of fuller representation of local interests, and supervision of different classes of institutions by several appropriately constituted bodies

The Commission gave detailed suggestions for the reorganisation of the Calcutta University, for the control of secondary and intermediate education in Bengal and for the establishment of a unitary teaching University in Dacca. These measures concerned only Bengal but it was generally recognised that some of the criticisms made by the Commissioners admit of a wider application. Committees were consequently appointed by the Universities of Madras, Bombay, Patna and the Punjab to consider the findings of the Commission. These committees were still sitting when the year came to a close. But in one province outside Bengal the labours of the Commission have borne early fruit. In the United Provinces two committees were appointed one to prepare a scheme for a unitary teaching University at Lucknow, the second to consider measures for the reorganisation of the Allahabad University and the creation of a Board to control secondary and intermediate education. Rapid progress was made with the scheme for the Lucknow University. The Sub Committee reported by the end of January and their recommendations were in the main accepted by the Committee, which reassembled in Lucknow on the 26th of January to consider their report. The proposals followed closely the scheme adopted for the Dacca University and they formed the basis of the legislation which has since been undertaken to bring the Lucknow University into being.

In Bengal the first outcome of the Commission's Report was the passing of the Dacca University Act in the Imperial Legislative Council in March 1920. The University itself will come into being in 1921. "But" writes the Director "the outcome of the Commission's report, as far as it affects the general university and secondary education system of the Presidency, is still, in spite of the Government of India resolution, a mere matter for speculation." "In these circumstances," he adds, "a general suspension of effort and a wide-spread feeling of that strain and despondency which always accompany periods of doubt are the prevailing features of the situation."

The scheme for the establishment of the Rangoon University was completed during the year and the Act of incorporation has since been passed in the local legislature. The scheme for the new University at Nagpur has been undergoing reconsideration in the light of the Commission's Report. A committee was constituted in December 1919 to formulate proposals for a new University at Delhi and has since submitted its report.

* * * * *

The number of Arts, including Oriental, colleges increased during the year by $\frac{1}{4}$ to 130 and the number of students by 1,752 to 52,482. The number of professional colleges increased by 3 to 60, while the students increased by 134 to 13,434. The overcrowded state of the colleges in Calcutta is emphasised in the Commission's Report. Similar conditions prevail in other large university centres.

* * * * *

The Patna University alone reports a fall in the number of students. The decrease is ascribed partly to economic conditions, partly to "an impression current among students that the standards require for a pass in the various examinations of the Patna University are higher than those of the Calcutta University and there has in consequence been a considerable migration mainly to schools and colleges in Bengal."

* * * * *

Among other university developments may be noted the establishment of honours schools by the Punjab University. The teaching for the honours degrees will be given by the University itself through the medium of college teachers organised under the guidance of university professors. The Madras University has instituted the degrees of B.Sc. and B.A. Honours, though as yet no college has applied for affiliation in the new course. The Benares Hindu University has opened an ambitiously planned college of Engineering which is being equipped on the most modern lines. The Bombay University has opened an Employment Bureau as an experimental measure.

III—Secondary Education

The number of secondary schools rose by 529 to 8,708 and of pupils attending them by 69,677 to 1,281,810. Expenditure increased by Rs 3,63,511 to Rs 4,00,37,714.

The increments in pupils are distributed thus —

High schools
Anglo vernacular Middle schools
Middle vernacular schools

41,154
69,677

Primary Education Acts have now been passed by all the Presidencies and major Provinces They came	Compulsory Education into effect on the following dates*	—
Bombay Act		February 6th, 1918
Punjab Act		April 7th 1919
Bengal Act		May 14th 1919
United Provinces Act		June 7th 1919
Bihar and Orissa Act		February 26th 1919

The Primary Education Acts of Bombay and the United Provinces apply only to municipalities, the Bengal Primary Education Act applies in the first instance to municipalities, but is capable of extension to rural areas, the remaining Acts are applicable both to municipal and to rural areas. The Acts are all alike in one particular, namely, in leaving the initiative for the introduction of compulsory education to local authorities. The Bengal Act goes somewhat farther than the other Acts in requiring all municipalities to undertake at once a survey of the conditions of primary education in municipal areas and to submit an estimate of the cost of introducing compulsory education for boys between the ages of 6 and 10 residing within those areas.

The Bengal Municipalities with the aid of an officer on special duty are undertaking the required survey. In Bombay four municipalities—Bandra, Surat, Dakore, Byadgi—have been permitted to introduce compulsory education, and three others (Satara, Dhulia, and Hyderabad) are contemplating its introduction. At Surat and Bandra compulsion is to be applicable to both girls and boys. The Bombay Director writes: "With not a few municipalities the main difficulty is financial, the municipality is too often unwilling to find its share of the necessary cost by additional taxation and looks to government to provide an undue proportion from Provincial funds."

In the Punjab, Multan will be ready to begin compulsion in 1921. Lahore, Hoshiarpur, Ludhiana and Sialkot appear to have resolved to introduce compulsion but their schemes have not yet matured. Lahore has engaged a special superintendent and Government have placed an officer at the disposal of Amritsar in connexion with the preliminary educational survey. In Bihar and Orissa the only body to apply for permission to introduce compulsion was the Ranchi Municipality.

During the year primary education was made free in the following Bombay municipalities: Hahyal, Matheran, Pinel, Athani, Honaver, and Bhivandi. In Sind it is free at Shikarpur, Sukkur, Kambar, and Larhana. In the Punjab children of all Indian soldiers

who were in active service during the great war and are in indigent circumstances are educated free. In Delhi, fees have been remitted in the primary classes of municipal board schools and also in some private schools. In the North West Frontier Province vernacular middle education has been made free.

V—Professional and Special

Oriental learning
(Table No. 6)

There are 14 Oriental Colleges with 68½ students, representing an increase of 1 college and 23 students.

Commerce
(Table No. 6)

The number of colleges and schools of commerce (32) is unchanged but the attendance increased by 1,062 to 5,557.

The subject of Engineering education has been transferred to the Public Works Department in the Government of India. A similar transfer of control has taken place in some provinces in others it is under consideration. In Bengal the Bengal Engineering College, as it is now called and the Ahsanullah School at Dacca have been excepted from the general transfer.

There has been a decrease of 24 to 135½ in the number of students in the four colleges of Engineering, but the attendance at the 17 schools of engineering increased from 1,015 to 1,267.

One result of the Public Works Department Reorganisation Committee's recommendations has been a scheme for the reorganisation of the staff of the Thomason Engineering College. In Bombay the degree examinations in engineering will be held twice annually from the year under review. The scheme for the general improvement of the Dacca School of Engineering was sanctioned during the year. An important change in the internal economy of the Bihar School of Engineering is the severing of connexion between the overseer and sub-overseer classes. Mention has already been made of the opening of the College of Engineering at the Benares Hindu University.

Technical education
(Table No. 6)

The number of schools of industries decreased by 3 to 267 and the number of pupils by 589 to 12,935.

The whole position of technical education was under review during the year in the Provincial Industrial and Educational Departments.

* [The Central Provinces Act (May 14th 1920) though passed in March did not come into force till after the close of the year under review.]

In *Malras, Jengal, Burma, Pihar and Orissa* and the *Central Provinces* the control of industrial schools has been transferred to the Directors of Industries

In *Bombay* a full time inspector has been appointed by the Committee of Direction for Technical Education to visit the schools, inspect the work, and to guide and advise the teachers. The majority of the schools under the committee train boys in one or more crafts or trades e.g., carpentry applied to house building, smithy, furniture-making, etc. The *Bengal* Government have decided to establish in Calcutta a technical school for the training of foreman mechanics. The proposed school is not to be a Government institution but is to be placed under trustees. The removal of the weaving institute from Serampore to a spacious site at Lillooah is contemplated. The centre at Cuttack Bazar has provided a failure and it is proposed to close this and open others at more suitable places. A scheme for a weaving institute at Dacca has been put in hand. Perpetual instruction in weaving seems to have proved successful. In the *Punjab* there is a fast increase in the number of girls receiving industrial education, the number of boys decreased by 515 to 2,063. This is partly at any rate, accounted for "by economic pressure which drives boys to earn a living as quickly as possible."

Proposals for the establishment of a school of handicrafts in the *North-West Frontier Province* received the general approval of the Government of India.

In the *Punjab* the scheme for the introduction of practical agricultural education made a good start in the year under review. ("The principle underlying the scheme is the recognition of agriculture, not as a special subject to be taught in a few schools, but as a subject to be included in the ordinary curriculum of all rural secondary schools in the province.") One high school has a demonstration farm and others have started teaching agriculture. Several middle schools have also started teaching the subject. The number would have been larger but for delay in taking up the necessary land for practising purposes. Meanwhile the *Lyalpur Agricultural College* turns out twenty certificated vernacular teachers annually who have undergone a year's training in agriculture. A Training College was opened at *Lyalpur* which will specialise in agriculture and provide teachers in this subject for high schools. A scheme is also in operation by which certain inspecting officers undergo a short intensive course at the *Agricultural College*.

The year under review shows a large increase (250) in the number of training institutions which now number 1,041, while the number of students undergoing training increased by 1,510 to 26,367.

FI—Education of special classes

The number of public institutions for girls increased by 1,359 to 22,862. The total number of girls in public schools (including the girls reading in boys' schools) rose by 66,177 to 1,306,711. There was, however, a decline of 2,581 girls in private institutions and the net increase thus amounts to 63,593 only. The decrease under private institutions is apparently due to the absorption of such schools into the public system of education.

The number of women under training as teachers increased by 328 to 3,553.

The number of European pupils decreased from 41,506 to 43,922. The enrolment in schools for Europeans, however, increased by 198 to 45,088, but of these only 41,128 were Europeans as against 41,414 in the previous year. The decline is confined mainly to *Bombay* and the *United Provinces* and is accounted for by the departure of a number of families to Europe since the close of the war.

The total number of teachers in schools for Europeans was 9,674 of whom 2,060 were trained and 390 were graduates.

The number of Muhammadans in public institutions rose from 1,659,533 to 1,764,868. Private institutions, on the other hand, show a decline and the number in them fell from 217,666 to 212,726. The following table shows the increases in the number of Muhammadan students in different kinds of public institutions—

Class of institution	No of MUHAMMADAN STUDENTS		Increase or decrease
	1918-19	1919-20.	
Arts Colleges	5,447	5,859	+412
Professional Colleges	1,291	1,466	+175
Secondary schools (Engl. ab)	108,942	169,402	+60,460
Middle vernacular schools	30,967	84,991	+54,024
Primary schools	1,404,097	1,459,869	+55,772
Special schools	41,425	44,164	+2,739
TOTAL	1,659,533	1,764,868	+105,335

This year there has been an increase of 10,329 students as against an increase of 21,243 in the previous year. The increase in the attendance at middle vernacular and primary schools is particularly noticeable and is no doubt largely due to the extension of primary education in rural areas.

* * * * *

The number of Jains at school was 22,540 in *Bombay*, 1,588 in the *Punjab*, 170 in *Bihar* and *Orissa*, 5504 in the *Central Provinces*, and 14 in *Assam*. The

Education of Jains.

classification of the pupils by institutions was as follows: In *Bombay* 224 scholars were in colleges, 2861 in secondary, 19,113 in primary, and 327 in special schools; in the *Punjab* the number in colleges was 34, in secondary and primary schools 701 and 430 respectively, and in special schools 3; in *Bihar* and *Orissa* only one student was at college, 31 in secondary, 66 in primary, 5 in special schools, and 67 in private institutions.

In the *Punjab* the number of Sikhs at school increased by nearly 6000 to 70,012 (946 in colleges, 26,023 in secondary, 39,190 in primary and 550 in special schools, and 4,203 in private institutions). *Bombay* reports 328

Education of Sikhs.

Sikhs, of whom one was at college, 39 each in secondary and special schools, and 249 in primary schools. There were 280 Sikhs being educated in the *United Provinces*.

A special board was formed in *Madras* to advise on the issue of certificates to teachers of schools for defective children in connexion with the training class established by the Church Missionary Society at Palamcottah.

Education of defectives.

In *Bengal*, the Kurseong School for deficient and defective European children is said to have achieved remarkable success. In *Burma* satisfactory progress is recorded. A new school for the deaf has been opened since the close of the year. In the *Central Provinces* the Amraoti school for the deaf and dumb had to be closed on account of the death of the headmaster.

Some progress has been made in the matter of the admission of Panchamas into schools under public management in accordance with the instructions issued by the *Madras* Government. A number of scholarships and

Education of backward and depressed classes.

fee remissions were also sanctioned for the benefit of Panchamas and other boys belonging to the aboriginal and criminal tribes reading in secondary schools. A new Panchama school was opened in *Coorg*. In *Bengal* the desire for education among backward classes, particularly the Namasudras, is reported to be very keen. The Society for the Improvement of Backward Classes has been doing good work. Special primary scholarships are awarded by some district boards to pupils of these communities. The number of pupils belonging to the aboriginal and depressed classes showed a marked decline in *Bombay*, the *Punjab* and the *Central Provinces*. This fall in the number of students is generally attributed to economic conditions. In the *United Provinces* some boards employed supervisors of schools for the depressed classes with encouraging results.

* * * * *

Factory schools have been working successfully with some exceptions. The Akola school in the *Central Provinces* has been a failure and in *Assam* the Digboi

Education of Factory children, etc.

school also proved unsuccessful and was in the course of the year converted into an aided middle English school.

STATEMENT OF EDUCATIONAL PROGRESS IN INDIA
